Professional Summary

Computer Science undergraduate with strong MERN stack expertise and hands-on experience deploying applications using Docker, AWS EC2, and AWS RDS. Skilled in designing and developing full-stack web applications with secure backend integration. Passionate about problem-solving, DevOps practices, and writing scalable, maintainable code. Actively seeking a full-time opportunity to apply technical and collaborative skills in a professional environment.

Technical Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js

Backend: Node.js, Express.js, Django

Databases: MongoDB, MySQL, PostgreSQL, AWS RDS

DevOps & Tools: Docker, AWS EC2, Git, GitHub, Linux, NGINX

Deployment & Testing: Vercel, Postman, Thunder Client

Projects

Hospital Management System (MERN Stack)

  - Built and deployed a full-stack MERN application.

  - Dockerized both frontend and backend and hosted them on AWS EC2.

  - Connected backend to AWS RDS (MySQL) and managed environment variables securely.

  - Exposed and tested API endpoints with Thunder Client and Postman.

Job Portal (Indeed Clone)

  - Developed a job board with role-based authentication (employer/job seeker).

  - Implemented dynamic job search and filtering.

  - Stack: React.js, Node.js, Express.js, MongoDB

  - GitHub: MERN-job-portal

E-Commerce Platform

  - Built a full-featured online store with secure checkout and product management.

  - Integrated admin panel for order control.

  - Stack: React.js, Node.js, Express.js, MongoDB

  - GitHub: MERN-e-commerce

Restaurant Ordering Website

- Created an online food ordering system with live order status updates.

- Stack: React.js, Node.js, Express.js, MongoDB

- GitHub: MERN-Restaurant

Education

Iqra University, Karachi

Bachelor's in Computer Science - Expected 2026

Govt. National College, Karachi

Pre-Engineering - 2019 - 2021

Certifications

Introduction to MERN Stack - Simplilearn

Issued March 2025 | Certificate Code: 8071325
